        cout << val << " ";
    }
}

```

The screenshot shows a VS Code interface with the 'TERMINAL' tab active. The terminal window displays the command prompt 'PS C:\Users\harsh\OneDrive\Desktop\DALabAssignments>' followed by a complex command to run a C++ program using Visual Studio's debugger. The output of the program is '2 2 4 6 9', which are the elements of the array {4, 2, 6, 9, 2} after being sorted by the Quick Sort algorithm. The prompt then returns to 'PS C:\Users\harsh\OneDrive\Desktop\DALabAssignments>'.
